

Only the registered people have access to the private main page.

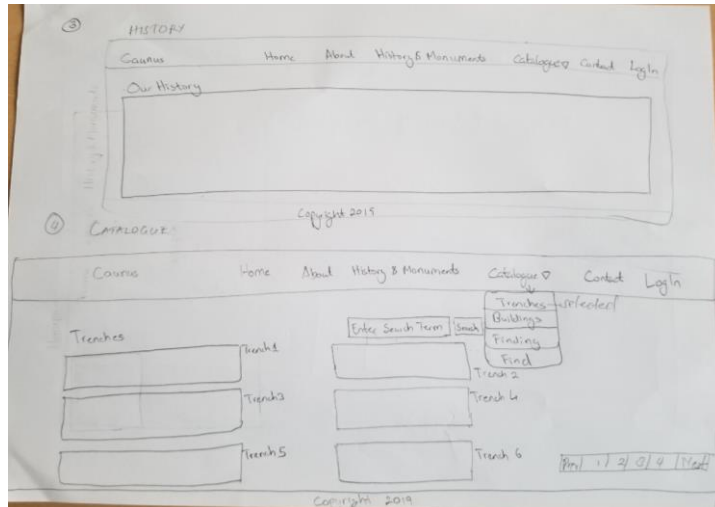

These images portray the designs of the public page with all the different associated HTML pages.

The image above portrays the public page and the About page. On the Home page you can find the main picture as a background. Additionally, the top displays the menu bar which links to the respective information pages. These pages include: About, History, contact. On the About page are the details such as “What we offer” and “Our History”. Once someone is on the Home page, they can Access all the links provided except for the public user who has no Access to the catalogue.

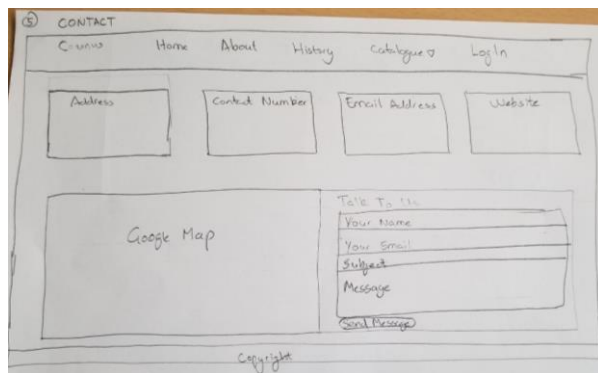

After the chosen accounts have been created and distributed by the Superuser, the assigned users can now use their sign in credentials (Username and password) to login and be able to Access the Catalogue additionally.

The Above image shows the two images of the History page and the Catalogue page.

On the History page, all users are able to see the Caunus History. On the Catalogue page, all the registered users with login credentials are able to Access the catalogue. On this page, all the Caunus excavation data is fetched from the database and displayed to the User. These details are: Trenches, Buildings, Findings, and Find, Additionally, there is a search Field where a user can use some key words and search for given information. The page allows the display of more pages by use of the “Previous and Next” page control.

Above is the Contact page, here the contact details of Caunus such as Address, Contact Number, Email Address and Website are displayed. All users are able to Access this and use it to contact the concerned people.
